DREAM CATCHER

The legend of the Dream Catcher is believed to have originated with the Oneida Indians in the northeastern part of the United States.

It is said that the Dream Catcher allows good dreams to flow through the spirit hole in the center of its web. Bad dreams are trapped in the web and then disappear with the morning sun.

The Dream Catcher is often given to infants and children, the young as well as the old, so that their dreams may come true. It is kept throughout life and its mystical power is enhanced by adding fetishes and personal belongings.
